PRESIDENT THOMAS A. COLLINS

As President of this College, your shadow of influence will fall across the paths of many people; faculty and students; ministers and members of the Church, and many others. Pray that your shadow, like that of Peter, may bring much of health, healing and harmony to these who esteem you and who imitate you, as you are an imitator of Christ.

DEAN JACK W. MOORE

As Dean of this College, yours are the challenges of administration. As an administrator, you will need to be courageous but charitable, firm but forgiving, fearless but fair, progressive but patient, uncompromising but cooperative. These you have mastered!

A black and white photograph showing a close-up of a hand holding a glass pipette. The pipette is positioned vertically, with a small drop of liquid hanging from its tip, just above a small glass vial held in another hand. The background is out of focus, showing various pieces of laboratory glassware and equipment, creating a bokeh effect. The lighting is dramatic, highlighting the textures of the glass and the skin.

As a tiny drop can change the chemical composition of a liquid, so can a tiny drop of knowledge, applied with the skill of a technician, change the unfolding worlds of YOUTH.
